## Study statistics

### PATIENTS & CASES:

|                                | Total | Males | Females | Min age | Max age | Median age |
|--------------------------------|-------|-------|---------|---------|---------|------------|
| Patients included in the study | 168   | 81    | 87      | 18      | 59      | 31         |
| Patients out of the study      | 5     | 3     | 2       | 22      | 56      | 37         |
| Cases submitted so far*        | 47    | 27    | 20      | 19      | 59      | 31         |
| Cases evaluated so far         | 45    | 26    | 19      | —       | —       | —          |
| Negative cases                 | 25    | 12    | 13      | —       | —       | —          |
| Positive cases                 | 20    | 14    | 6       | —       | —       | —          |

\* Excluding the cases of the patients that opted out of the study at some point.

### USERS & CENTERS:

|                   | Total | Submitters | Reviewers | Hematos | Study Admins | Super Admins | Testers |
|-------------------|-------|------------|-----------|---------|--------------|--------------|---------|
| Number of users   | 99    | 35         | 8         | 36      | 4            | 4            | 12      |
| Number of centers | 35    |            |           |         |              |              |         |

### UPLOAD / DOWNLOAD TIMES:

|                            | Min     | Max     | Median  |
|----------------------------|---------|---------|---------|
| Upload time <sup>1</sup>   | 0:00:17 | 1:22:31 | 0:04:53 |
| Download time <sup>2</sup> | 0:00:00 | 0:54:44 | 0:02:06 |

1. Time is per case (two files).
2. Time is per file.
